RADIOPHYSICS AND QUANTUM ELECTRONICS
Volume 15, Numbers 1-12, 1972
(A translation of Izvestiya VUZ. Radiofizika)

A

Afinogenov, V. M.—1207
Ageev, D. V.—1392
Aitkozhin, S. A.—1207
Aksel'rod, A. M.—1461
Alekseev, A. S.—238, 362
Alekseev, G. V.—151
Alimov, V. A.—1215
Andreev, G. A.—40, 1045
Andrianov, V. A.—879
Andronova, I. A.—535
Antropov. V. A.—1065
Antropova, L. Kh.—1065
Apresyan, L. A.—962
Aronovich, G. V.—1309
Arsen'yan, T. I.—937
Ashkenazy, V. O.—1413

B

Barabanenkov, Yu. N.—48, 700, 931, 1420
Barasukov, K. A.—144
Bashkirov, O. A.—902, 1368
Batishchev, D. I.—774
Bazarskii, O. V.—113
Belyaev, B. G.—718
Belykh, V. N.—793, 1251
Belyustina, L. N.—793, 1251
Benediktov, E. A.—529
Berbasov, V. A.—214, 722
Berman, G. P.—1113
Bershtein, I. L.—433
Bespalova, M. P.—397
Bezrodnyi, V. G.—53, 1437
Bezugli, A. V.—1445
Bilyba, V. F.—817
Blagoveshchenskii, A. D.—1004
Bobrov, A. F.—1361
Bogatyrev, Yu. K.—895, 902
Bogdanov, E. P.—392
Boloznev, V. V.—915
Borisov, V. V.—708, 1004
Bozhkov, A. I.—175
Brodskii, Yu. A.—447

C

Chaika, V. E.—86
Chaplin, A. F.—1461
Chebyshev, V. V.—1076
Chernyaev, E. N.—454
Cherpak, N. T.—1217

D

Deryugin, L. N.—677
Dobryden', V. A.—844
Dorfman, Ya. M.—188

E

Efremov, G. F.—921
Egupov, N. D.—320, 329
Éidman, V. Ya.—480
Épshtein, É. M.—22, 461, 488
Eremin, B. G.—863
Ershov, A. T.—383
Eru, I. I.—26
Erukhimov, L. M.—625

F

Fabrikant, A. L.—420
Fakhrutdinova, A. N.—980
Fateev, B. P.—397
Fedotkin, M. A.—830
Feizulin, Z. I.—543
Fialkovskii, A. T.—86
Filippov, A. V.—808
Finkel'shtein, S. F.—696
Fishman, L. Z.—1262
Fitsner, L. N.—766
Fomin, Yu. A.—45, 110
Fraiman, A. A.—1041
Fraiman, G. M.—1029
Fridman, G. Kh.—677
Fridman, S. S.—233
Frumkis, L. S.—590
Fuks, I. M.—53, 1437
Furashov, N. I.—1124, 1129

RADIOPHYSICS AND QUANTUM ELECTRONICS
Volume 15, Numbers 1-12, 1972
(A translation of Izvestiya VUZ. Radiofizika)

Volume 15, Number 1 January, 1972

	Engl.	Russ.
The Statistical Model of the Fading of Shortwave Radio Signals that are Obliquely Reflected from the Ionosphere – E. I. Ginzburg and O. G. Zhuravskii	1	5
Moving Perturbations of the Ionization in a Field of Strong Electromagnetic Waves – A. V. Gurevich	5	11
On the Stability of a One-Frequency Laser Based on an Inhomogeneously Broadened Active Substance – N. D. Milovskii and L. L. Popova	11	19
Analysis of the Procedure for Filling Cells for a Quantum Frequency Standard Based on Rb^{87} Vapors – G. A. Mishakov, A. I. Pikhtelev, Yu. M. Sapozhnikov, and A. A. Ul'yanov	17	27
Thermal Instability of a Semiconductor in a Lasing Beam – É. M. Épshtein	22	33
On the Use of Anadalusite in "Warm" Paramagnetic Amplifiers – I. I. Eru and S. A. Peskovatskii	26	38
On the Theory of Phase Interaction of Modes – N. N. Rozanov	30	43
On a Certain Energy Relationship for Waves in Systems Having Traveling Parameters – Yu. M. Sorokin	36	51
The Effect of Intensity Fluctuations on the Measurement of the Angular Position of a Radiation Source by the Opticoelectronic Single-Pulse Method – G. A. Andreev and R. M. Magid	40	55
The Approximate Determination of the Integral Distribution Function of the Largest Values in the Realizations of Random Sequences – Yu. A. Fomin	45	62
On a Transformed Stochastic Equation – Yu. N. Barabanenko	48	66
Space-Time Correlation of the Amplitude and Phase of the Field in a Waveguide having a Statistically Rough Boundary – V. G. Bezrodnyi and I. M. Fuks	53	73
Diffraction of H-Polarized Waves by a Tape Array of the "Louver" Type – A. A. Kirilenko and S. A. Masalov	61	83
Shortwave Asymptotic Behavior of the Solution of the Problem of Diffraction by a Convex Body. III – E. A. Leont'ev	72	98
Complex Waves in a Two-Layer Circular Shielded Waveguide – S. B. Raevskii	82	112
A Coaxial Open Cavity Resonator Formed by a Barrel-Shaped Outer Mirror and a Cylindrical Inner Mirror – A. T. Fialkovskii and V. E. Chaika	86	117
The Fields of Certain Spiral Systems – N. I. Trotsyuk	93	126
On "Surface Currents" of a Tubular Beam having Helical Electron Trajectories in the Field of a Fast Wave – G. N. Rapoport and N. Ya. Kotsarenko	100	136
BRIEF COMMUNICATIONS AND LETTERS TO THE EDITOR		
Excitation of Kinetic Instability of a Plasma by an Almost-Monoenergetic Beam – V. L. Sizonenko and K. N. Stepanov	106	144
The Effect of an Extrenal Magnetic Field on Two-Frequency Quadrupole Spin Echo – E. S. Grechishkin and E. M. Shishkin	108	145
Distribution of the Duration of the Sequential Procedure in Detecting Signals – Ya. A. Fomin and A. M. Rembovskii	110	147

Engl./Russ.

Investigation of Spatial Coherence of the Radiation of Certain Antennas in the Microwave Range – N. V. Kotosonov, Ya. L. Klyavich, and O. V. Bazarskii. . . 113 150
Transient Currents which are Space-Charge Limited in Solids with Allowance for Capture by Traps – A. I. Rudenko 116 152

Volume 15, Number 2 February, 1972

The Observation of Fluctuations of Relict Radio Emission as a Method of Distinguishing Adiabatic Perturbations from Other Forms of Perturbations of Material Density in the Universe Which Lead to Galaxy Formation – Ya. B. Zel'dovich, A. Kh. Rakhmatulina, and R. A. Syunyaev 121 161
On the Correlation Theory of the Back-Scattering Field in a Magnetically Active Plasma – V. A. Ivanov and V. V. Tamoykin 129 172
Dynamo-Optical Effects in a Plasma – V. G. Gavrilenko, G. A. Lupanov, and N. S. Stepanov. 138 183
On the Theory of Transition Radiation in a Waveguide – K. A. Barasukov, É. B. Gazazyan, and É. M. Laziev. 144 191
On the Method of Partial Reflections – V. A. Rzyhov 148 196
Experimental Investigation of the Effective Width of Patterns for Back Scattering from Surfaces, and Distributions of Reflected Signals in the Meter and Decimeter Wavelength Ranges – G. V. Alekseev, S. A. Volkovskii, A. P. Zhukovskii, E. I. Onoprienko, and V. V. Trofimov 151 200
The Electromagnetic Radiation from Sources Above an Ideally Conducting Expanding Sphere – A. V. Manankova 160 211
Steady-State Mode-Locking Operation in a Laser with a Saturable Absorber – G. L. Gurevich and V. M. Pakhin 167 221
On Measurements of the Time Characteristics of Radiation, which are Based on Multiphonon Processes in Oppositely Traveling Light Beams – T. I. Kuznetsova . 171 227
Stimulated Light Scattering by a Fluid Surface in the Presence of Total Fresnel Reflection – A. I. Bozhkov 175 233
"Selfmodulation" of Electromagnetic Waves in Nonlinear Transmission Lines – L. A. Ostrovskii and L. V. Soustov 182 242
On the Theory of Scattering in Media having Space-Time Fluctuations – V. G. Gavrilenko and Ya. M. Dorfman. 188 249
On the Behavior of Wave Numbers beyond the Critical Value for Waves in Dielectric Waveguides (Media with losses) – V. V. Shevchenko 194 257
On a Certain Method for Considering Statistical Inhomogeneities of a Cathode – A. F. Golubentsev and A. S. Shapovalov 201 266
Radiation Instability of Electron Rings in a Waveguide – I. L. Korenev and L. A. Yudin 206 272
Preoscillation Charge Distributions in a Cylindrical Magnetron – M. I. Kuznetsov, V. A. Berbasov, and I. N. Zheleztsova 214 283
Problems in Creating a Narrowband Tunable Electrostatic Amplifier – V. A. Vanke, A. A. Zaitsev, S. P. Kryukov, and V. M. Lopukhin 220 291
On Frequency Multiplication in the Millimeter Range in n-InSb – V. A. Kozlov and V. I. Piskarev 227 300
On the $2S_{1/2}-1S_{1/2}$ Photon–Plasmon Transition in Hydrogenous Atoms – S. A. Kaplan and E. B. Kleiman 231 305

BRIEF COMMUNICATIONS AND LETTERS TO THE EDITOR
Dispersion of Optical Activity in Lithium Iodate Crystals – M. A. Novikov, S. S. Fridman, and I. G. Yavorovskii 233 308

Volume 15, Number 3 March, 1972

Expansion of the Frequency Criterion of Absolute Stability for Controllable Systems with One Nonlinear Nonstationary Element – E. S. Pyatnitskii	235	319
On the Formal Expansion of the Possibilities of the Method of Integral Transformations in Investigating Linear Distributed Systems with Constant Parameters – A. S. Alekseev and O. K. Laburkina	238	324
On the Convergence of the Rothe Method in Formulating Bounded Almost-Periodic and Periodic Solutions of a Boundary Value Problem of the Parabolic Type – A. P. Mal'tsev	245	332
On the Formulation of Bounded Almost-Periodic and Periodic Solutions of a Problem of the Parabolic Type by the Method of Straight Lines – A. P. Mal'tsev	251	340
Optimization of a Controlled Plant That Can Be Described by a Nonlinear System of Hyperbolic Equations – V. I. Plotnikov and E. R. Sikorskaya	256	346
D-Sets, Δ-Sets, and Unsolvable Problems in Discrete Control – D. I. Kogan	266	358
A Group of Independent Stochastic Automata as a Search Optimization System – V. P. Grigorenko, Yu. I. Neimark, A. N. Rapoport, and E. I. Ronin	271	365
On the Absolute Stability of Nonlinear Automatic Systems with Double Modulation – S. V. Shil'man and T. M. Shestakova	280	376
On the Existence of Algebraic Differential Equations with Noded Periodic Solutions – Kh. Ganiev	291	389
On Nonsymmetrical Oscillations in Certain Symmetrical Interacting Systems – V. I. Goryunov	294	393
On Permanent Rotation of an Equatorial Satellite in the Geomagnetic Field – A. A. Khentov	303	405
On Estimating the Performance of Automatic Optimization Systems in Steady-State Operating Modes – K. K. Sedova	314	419
Analysis of Discrete Automatic Control Systems with Varying Parameters Using the Method of Orthogonal Expansions. I. – N. D. Egupov and V. A. Ivanov	320	427
Statistical Analysis of Discrete Control Systems with Varying Parameters Using the Method of Orthogonal Expansions. II. – N. D. Egupov and V. A. Ivanov	329	438
The Asymptotic Behavior of the Eigenvalues and Eigenfunctions of the Laplace Operator on a Compact Riemannian Manifold – V. R. Kogan and A. V. Krakhnov	336	448
The Equivalence Condition for Two Important Adaptation Algorithms and Its Relation to Efficient Estimates of Probability Distribution Parameters – B. A. Grishanin	341	454
Conditions Governing the Efficiency of Adaptation Algorithms which are Based on the Empirical Bayes Approach to Statistics – B. A. Grishanin	348	462
Synthesis of the Vehicle Suspension Parameters – R. A. Musarskii	357	474
BRIEF COMMUNICATIONS AND LETTERS TO THE EDITOR		
Operational Calculus for One-Parameter Functions of Nonsingular Matrices – A. S. Alekseev	362	480

Volume 15, Number 4 April, 1972

On the Integral Radio Emission of Mars during the Opposition of 1971 – V. D. Krotikov and O. B. Shchuko	365	487
On the Problem of the Distribution of Impurity Ions in the F-Region of the Ionosphere – L. E. Zhmur	367	490
On the Theory of Instability in an Ionospheric Current Jet – D. S. Kotik	372	497
Certain Statistical Characteristics of Signals that Are Partially Reflected from the D-Region of the Ionosphere – E. A. Benediktov, L. V. Grishkevich, V. A. Ivanov, and G. P. Komrakov	378	504
Determination of the Vertical Humidity Profile from Terrestrial Thermal-Radar Measurements of Atmospheric Absorption – A.T. Ershov, A.P. Naumov, and V. M. Plechkov	383	510

Engl./Russ.

On the Effect of Collisions on the Propagation of Plasma Waves near the Harmonics of the Electron Gyrofrequency – A. E. Krupina 389 517
Instability of Spatially Separated Plasma Beams. III – E. P. Bogdanov, L. K. Orlov, and Yu. A. Romanov 392 521
On the Temperature Frequency Coefficient of a Quantum Cell Containing Rb^{87} Vapors – M. P. Bespalova, G. A. Mishakov, A. I. Pikhtelev, B. P. Fateev, and A. A. Ul'yanov 397 528
Correlation of the Displacements of Spatially Bounded Light Beams in a Turbulent Medium – A. I. Kon..... 401 533
On Amplitude-Phase Fluctuations of a Plane Light Wave in a Turbulent Medium – V. I. Klyatskin 406 540
On the Effect of the Size of Optical Systems on the Definition of Light Beams in a Turbulent Atmosphere – M. A. Kallistratova and A. I. Kon..... 410 545
On the Statistical Moments of the Wave Field in the Presence of Caustics – V. G. Sinitsyn..... 414 550
On Optimal Parameters of Self-Excited Oscillators – A. N. Malakhov, N. N. Solin, and A. L. Fabrikant 420 557
The Frequency Stability of Single-Tuned Parametric Systems – O. V. Muzychuk and L. G. Shpelevich..... 424 562
On an Investigation of Slow Frequency Fluctuation – I. L. Bershtein and V. A. Markelov . 433 573
Solitary Electromagnetic Waves in Nonlinear Lines – L. A. Ostrovskii, V. V. Papko, and E. N. Pelinovskii..... 438 580
Electromagnetic Beams in Anisotropic Media. II – Yu. A. Brodskii, I. G. Kondrat'ev, and M. A. Miller..... 447 592
On the Transformation of the Stokes Parameters for Backscattering of Electromagnetic Waves – B. N. Vvedenskii, E. N. Chernyaev, I. S. Krylov, and S. I. Romanov 454 601
On the Nonlinear High-Frequency Conductivity of a Semiconductor Film – É. M. Épshtein 461 611
Gain Saturation in a Cyclotron – Synchronous Wave Amplifier – V. A. Vanke and Yu. M. Timofeev 464 615
Statistical Simulation of Stationary Operating Modes of a Cylindrical Magnetron – P. V. Romanov, A. S. Roshal', and P. Sh. Yankelevich..... 472 625
On the Problem of the Role Played by Photoemission in the Mechanism of a Discharge with a Hollow Cathode – V. M. Tkachenko and V. B. Tyutyunnik..... 477 631

BRIEF COMMUNICATIONS AND LETTERS TO THE EDITOR

On Synchrotron Radiation in a Vacuum at Speeds Higher than the Speed of Light – V. Ya. Éidman..... 480 634
On the Transformation of Volume and Surface Waves in Plasma Systems – M. M. Tolmachev and M. B. Tseitlin..... 482 635
Resistive Instability of Electron Rings in a Waveguide – I. L. Korenev and L. A. Yudin ... 485 637
On the Amplification of Ultrasound in the Presence of an Electromagnetic Wave – V. L. Malevich and É. M. Épshtein..... 488 640

Volume 15, Number 5 May, 1972

Interaction of Waves in an Anisotropic Plasma — Ts. D. Loladze and E. M. Khirseli ... 491 647
Nonlinear Interaction of Waves in the Cylindrical Column of a Magnetically Active Plasma — V. M. Kormilets and I. P. Yakimenko 495 652
Absorption of the Extraordinary Electromagnetic Wave in a Linear Plasma Layer in the Region of Hybrid Resonance — A. Ya. Omel'chenko, V. I. Panchenko, and K. N. Stepanov. 501 660
Reflection of Electromagnetic Waves for Oblique Incidence on a Moving Ionization Front — V. I. Semenova 505 665
On the Effect of the Magnetoresistance of a Plasma in a Variable Magnetic Field — L. I. Kats, V. P. Terzhova, D. A. Shekhter, and L. A. Shekhter..... 513 675
Absorption of Radio Waves in the Earth's Atmosphere by Impurity Gases — A. P. Naumov..... 519 682

	Engl.	Russ.
Simultaneous Measurements of the Electron Concentration and the Frequency of Electron Collisions in the D-Region of the Ionosphere by the Method of Partial Reflections — E. A. Benediktov, L. V. Grishkevich, and V. A. Ivanov	529	695
Investigation of the Influence of a Magnetic Field on the Characteristics of a Ring Laser at a Wavelength of 3.39μ — I. A. Andronova and P. A. Khandokhin	535	703
Obtaining an Optical Image of a Two-Dimensional Object Using the Diffraction of Light by Ultrasound — Z. I. Feizulin	543	713
Mutual Synchronization of Self-Oscillatory Systems That Are Coupled via a Common Medium — Yu. M. Romanovskii	547	718
Measurement of the Correlation Between "Random Walk" of the Light Centers of Gravity of Spatially Bounded Beams in a Turbulent Atmosphere — M. A. Kallistratova and V. V. Pokasov	552	725
Kirchhoff — Fresnel Diffraction in a Turbulent Atmosphere — A. A. Kashkan and Yu. M. Polishchuk	558	732
The Average Illumination and the Intensity Fluctuations at the Focus of a Light Beam Focused in a Turbulent Atmosphere — I. A. Starobinets	563	738
Broadening of a Laser Beam Propagating in a Turbulent Atmosphere along Inclined Routes — V. L. Mironov and S. S. Khmelevtsov	567	743
The Problem of Limiting Polarization — O. N. Naida	573	751
An Open Resonator with a Trihedral Reflector — A. F. Kurin, G. P. Novikov, and V. N. Orlov	585	766
The Effect of a Plane-Stratified Medium on the Impedance of Horizontal Linear Antennas — V. S. Semenov, L. S. Frumkis, and A. S. Shostak	590	773
Nonstationary Current Transfer in Solids — A. I. Rudenko	594	778
Natural Oscillation of the Electron Cloud in a Cylindrical Magnetron — M. I. Kuznetsov, I. N. Zheleztsova, and S. V. Stepanov	601	787
BRIEF COMMUNICATIONS AND LETTERS TO THE EDITOR		
Nonstationary Solenoidal Regular Fluxes of Particles Having Like Charges — S. N. Ogorodnikov	605	792
A Certain Synchronism for Excitation of Harmonics by Ultrashort Light Pulses — G. V. Krivoshchekov, N. G. Nikulin, and R. I. Sokolovskii	608	795
"Slow Beats" in Two-Frequency Spin Echo — A. D. Gordeev, V. S. Grechishkin, and E. M. Shishkin	610	796
Intensity Fluctuations in a Focused Light Beam That Has Passed through a Stratum of Turbulent Atmosphere — V. Ya. S'edin, S. S. Khmelevtsov, and R. Sh. Tsvyk	612	798
Volume 15, Number 6 June, 1972		
Optical Properties of Artificial Dielectrics (Review) — R. A. Silin	615	809
The Effect of Interstellar Inhomogeneities on the Shape of the Radio Pulses from Pulsars — L. M. Erukhimov	625	821
The Energy Spectrum of the Inhomogeneities of the Interplanetary Plasma — N. A. Lotova	629	826
Quasilinear Theory of a Plasma Placed in a Weak Microwave Electric Field Plus a Constant Magnetic Field — O. M. Gradov and B. M. Markeev	634	832
The Singularities of Nonstationary Solutions of the Diffusion Equation in a Gravitational Field. I — A. A. L'vova, V. M. Polyakov, and V. V. Rybin	640	840
The Singularities of Nonstationary Solutions of the Diffusion Equation in a Gravitational Field. II — A. A. L'vova, V. M. Polyakov, and V. V. Rybin	649	852
"Nondiagonal" Magnetic Resonance in a Two-Level Spin-System — L. G. Malyshev and L. N. Novikov	655	860
Fluctuations of the Field of a Laser Beam Propagating in a Turbulent Atmosphere — V. L. Mironov and G. Ya. Patrushev	659	865
Space—Time Correlations of a Synchrotron-Radiation Field — A. S. Mazmanishvili and A. M. Shenderovich	665	873

	Engl.	Russ.
The Effect of an Interface on the Spectrum of Incoherently Reflected Waves — V. S. Popov and I. P. Yakimenko	672	882
The Resolving Power of Optical-Memory Matrices Based on Photochromic Materials for Recording of Information by Means of a Focused Beam — L. N. Deryugin, A. P. Pichugin, and G. Kh. Fridman	677	888
The Geometric—Optics Approximation and Amplitude-Phase Fluctuations of a Plane Light Wave in a Randomly Inhomogeneous Medium — V. U. Zavorotnyi and V. I. Klyatskin	684	897
Strong Fluctuations of the Intensity of a Spherical Wave Propagating in a Randomly Refractive Medium — V. I. Shishov	689	904
Measurement of the Light Intensity on the Axis at the Center of Gravity of a Focused Light Beam — É. I. Gel'fer, V. B. Kravtsov, and S. E. Finkel'shtein	696	913
The Applicability of the Equation for the Correlation Function of the Field in a Discrete Scattering Medium — Yu. N. Barabanenkov	700	918
The Incidence of a Plane Wave on the Boundary of a Conducting Region Moving at the Velocity of Light — A. V. Manankova and V. V. Borisov	708	928
Three-Dimensional Diffraction Problems for Plane Semi-infinite Impedance Systems — V. G. Myshkin	714	935
Calculation of the Electromagnetic Field from Stipulated Sources in the Form of Currents — B. G. Belyaev	718	940
Experimental Substantiation of the Existence of the Static Synchronous State of an Electron Cloud in the Preoscillational Operating Mode of a Magnetron — V. A. Berbasov, L. M. Groshkov, and M. I. Kuznetsov	722	944
BRIEF COMMUNICATIONS AND LETTERS TO THE EDITOR		
A Certain Method of Compensating the Radiation of the Earth's Atmosphere in Submillimeter Radio Telescopes — A. S. Vardanyan and B. V. Shpykov	725	948

Volume 15, Number 7 July, 1972

Decision Rules in Extremal Problems – D. B. Yudin	727	957
Automaton Optimization – Yu. I. Neimark	735	967
Theses on Adopted Decisions in Games with Nonopposing Interests – Yu. B. Germeier.	739	972
Problems of Random Search – L. A. Rastrygin	747	982
Certain Problems of Automatic Search for Inertial Objects – N. N. Leonov	755	992
Information-Statistical Theory of the Search for the Extremum of Functions – R. G. Strongin	760	999
On the Solution of Extremal Problems in a Biological Control System – L. N. Fitsner	766	1006
Optimal Design of Radio-Engineering Circuits – D. I. Batishchev	774	1016
Optimization Methods in Chemical Science and Technology – G. M. Ostrovskii	782	1026
On Convergence of the Method of Straight Lines for Certain Problems of the Parabolic Type – A. P. Mal'tsev	788	1033
On a Nonautonomous Phase System of Equations with a Small Parameter, which Contains Invariant Tori and Crude Homoclinic Curves – L. N. Belyustina and V. N. Belykh	793	1039
The Phenomenon of Locking in a Self-Oscillatory System with Two Degrees of Freedom – V. A. Mel'nikova	801	1049
Investigation of the Stability of a Polar-Coordinate Compensator – A. V. Filippov	808	1059
Investigation of Optimal Time-Resource Sharing in a Certain Problem of Serving with Priorities – V. F. Bilyuba and V. P. Savel'ev	817	1070
A Simple Algorithm for Searching for the Global Extremum of a Function of Several Variables and Its Utilization in the Problem of Approximating Functions – R. G. Strongin	823	1077
The Study and Optimization of the Process of Traffic Movement at Intersections by Means of a Specialized Physical Model – M. A. Fedotkin and B. Ya. Knyazhitskii	830	1085

	Engl./Russ.	
Comparison of the Performance of Empirical and Optimal Adaptation Algorithms in Problems of Multialternative Selection – B. A. Grishanin and D. D. Mamaev	838	1096
Optimal Strategies for Monitoring a Semi-Markovian Process by a Group of Observers – V. A. Dobryden'	844	1103
BRIEF COMMUNICATIONS AND LETTERS TO THE EDITOR		
On a Certain Problem of a Dynamic Traffic Net – V. A. Talantov and V. N. Schevchenko	852	1113

Volume 15, Number 8 August, 1972

The Development of Nonlinear Oscillations during the Interaction of a Modulated Electron Beam with a Plasma – A. I. Rogashkova, I. F. Kharchenko, M. V. Tseitlin, and I. T. Tsitson'	855	1121
Investigation of Thermal Self-Focusing of Electromagnetic Waves in a Plasma – B. G. Eremin, A. G. Litvak, and B. K. Poluyakhtov	863	1132
On a Certain Problem in the Propagation of Electromagnetic Waves in a Moving Plane-Stratified Medium – G. A. Lupanov	868	1139
The Radiation Field of a Plane Aperture in a Lamellarly-Inhomogeneous Medium above a Sphere Having a Large Radius – V. A. Andrianov	874	1147
Fluctuations of the Boundary of a Current-Carrying Plasma Pinch – A. D. Seledovkin	880	1155
Nonlinear Quasioptical Systems – S. N. Vlasov, V. A. Petrishchev, and V. I. Talanov	886	1162
On the Asymptotic Method for Nonlinear Wave Systems Having a Periodic Structure – Yu. K. Bogatyrev	895	1173
On Multivalued-Logic Devices Based on Wave Elements – O. A. Bashkirov, Yu. K. Bogatyrev, S. V. Kiyashko, L. A. Ostrovskii, V. V. Papko, and M. I. Rabinovich	902	1182
On the Effect of Fluctuations on the Synchronization of Frequency-Modulated Oscillators – V. V. Boloznev and Yu. E. Pol'skii	915	1199
On the Theory of Thermal Fluctuations in Nonequilibrium Systems – G. F. Efremov	921	1207
On the Applicability Boundaries of the Equation for the Average Field in a Discrete Scattering Medium with Allowance for Correlations of the Scatterers – Yu. N. Barabanenkov	931	1220
Interferometric Investigation of Phase Fluctuations of Coherent Optical Radiation in the Atmosphere – T. I. Arsen'yan, S. S. Pashkov, A. A. Semenov, A. A. Tishchenko, and N. N. Rimskii	937	1228
Diffraction of a Plane Electromagnetic Wave by a Crimped Dielectric Surface – O. S. Mergelyan	941	1233
Analysis of an Array Consisting of Impedance Filaments – A. F. Chaplin and V. F. Makkaveeva	946	1238
On the Spread of Velocities in Helical Electron Beams – Sh. E. Tsimring	952	1247
BRIEF COMMUNICATIONS AND LETTERS TO THE EDITOR		
On Application of Multiple-Scattering Theory to the Derivation of the Kinetic Equations for Waves in a Weakly Turbulent Plasma – L. A. Apresyan and Yu. A. Kravtsov	962	1260
Pulse Modulation of a Laser when Retuning an Auxiliary Passive Cavity Resonator by Means of Ultrasound – S. V. Gaponov and L. V. Paramonov	964	1262
Dispersion of the Phase Fluctuations of Mutually Synchronized Oscillators That Are Coupled via a Resistance – V. I. Kanavets and A. Yu. Stabinis	966	1264
On the Problem of a Cylindrical Shield in the Field of a Plane Wave – L. L. Kolenskii and Yu. A. Medvedev	969	1267
Calculation of the Capacitance of a Conductor Which Is Placed in an Inhomogeneous Anisotropic Dielectric Medium – A. G. Ramm	970	1268

Volume 15, Number 9 September, 1972

Scintillations of Sources Having Finite Angular Dimensions – V. I. Shishov	973	1277
Investigation of Fading Radio Reflections from Meteor Trails. I – G. M. Teptin and A. N. Fakhrutdinova	980	1286
Nonlinear Magnetic Sound in a Gravitational Field – L. A. Ostrovskii and N. R. Rubakha	986	1293
Effect of the Essential Region of the Ionospheric Layer on the Characteristics of the Propagation of Ultra-Long Waves – S. T. Rybachek	992	1300
The Effects of Propagation of Radio Waves in a Three-Dimensionally Inhomogeneous Magnetically Active Ionosphere – E. B. Krokhmal'nikov and G. K. Solodovnikov	996	1304
The Incidence of a Plane Electromagnetic Wave on a Moving Ionized-Gas-Density Jet – A. S. Blagoveshchenskii and V. V. Borisov	1004	1314
On the Propagation of Electromagnetic Waves in a Plasma with Shear of the Magnetic Field – E. V. Suvorov	1008	1320
Excitation of Electromagnetic Waves in a Plasma by a Beam of Phased Oscillators – A. B. Kitsenko and V. I. Panchenko	1012	1325
Interaction of Beams of Oppositely Traveling Electromagnetic Waves in a Transparent Nonlinear Medium – A. G. Litvak and G. M. Fraiman	1024	1341
On the Nonlinear Interaction of Two Monochromatic Langmuir Waves – V. V. Vas'kov	1030	1349
Kinetic Theory of Electromagnetic Fluctuations in an Anisotropic Plasma Half-Space – Zh. D. Genchev and S. S. Kalmykova	1035	1355
Diffraction of Fluctuating Radiation – A. A. Fraiman	1041	1362
The Effect of Additive and Multiplicative Interferences on the Accuracy with which the Angular Position of a Radiation Source Is Measured by Systems Having Pulse-Width Modulation – G. A. Andreev, B. P. Levenets, R. M. Magid, and G. I. Khokhlov	1045	1367
Space – Time Handling of Radiothermal Signals from Radiators That Move in the Near Zone of an Interferometer – Yu. A. Mel'nik	1052	1376
On the Displacement of Spatially-Bounded Light Beams in a Turbulent Medium in the Markovian Random-Process Approximation – V. I. Klyatskin and A. I. Kon	1056	1381
Optimal Estimation of Markovian Binary Signals in Additive Fluctuation Noise – S. D. Svet	1062	1389
On the Problem of Using the Magnetoresistance Effects to Measure Transmitted Microwave Power – V. A. Antropov, L. Kh. Antropova, G. A. Morgacheva, N. V. Kotosonov, and A. G. Shuvaev	1065	1393
On the Current Distribution and Input Impedance of Bent Dipoles Having a Finite Thickness – V. S. Varyvdin, F. I. Kolomoitsev, and V. V. Ovsyanikov	1069	1398
The Inverse Electrodynamic Problem for a Nonsymmetrical Excited Impedance Cylinder – V. V. Chebyshev	1076	1407
BRIEF COMMUNICATIONS AND LETTERS TO THE EDITOR		
On a Detector Based on InSb of the n-Type at a Temperature of 77°K – V. N. Genkin, V. I. Piskarev, and B. A. Trifonov	1084	1417
On the Problem of the Relationship between Coherence Theory and the Radiation-Transfer Equation – G. I. Ovchinnikov and V. I. Tatarskii	1087	1419
Correlations of Amplitude Fluctuations in Angle-Diversity Wave Beams – V. L. Mironov and G. Ya. Patrushev	1090	1421
On the Average Field That Accompanies Super-Refraction – M. B. Kanevskii	1093	1424

Volume 15, Number 10 October, 1972

Statistical Theory of Light Progation in a Turbulent Medium (Review) – V. I. Klyatsin and V. I. Tatarskii	1095	1433
On Nonlinear Plasma Oscillations near the Breaking Boundary – G. P. Berman and G. M. Zaslavskii	1113	1456

	Engl.	Russ.
On the Nonlinear Stabilization of Synchrotron Instability – S. A. Kaplan and V. N. Tsytovich	1120	1464
Investigation of the Spectrum of Radiowave Absorption by Atmospheric Water Vapor in the 1.15 to 1.5 mm Range – V. Ya. Ryadov and N. I. Furashov	1124	1469
Investigation of the Absorption of Radiowaves in the Atmospheric Transparency Window $\lambda = 0.73$ mm – V. Ya. Ryadov and N. I. Furashov	1129	1475
Nonlinear Interaction of the Spontaneous-Emission Field with the Active Medium of Gas Laser Amplifiers Having a High Gain – S. M. Kozel and E. P. Kuznetsov	1138	1486
On Parametric Paramagnetic Resonance – E. K. Khenner	1144	1493
On Parametric Conversion of Waves in Active Media – S. Ya. Vyshkind and M. I. Rabinovich	1151	1502
On Distributed Two-Frequency Parametric Oscillators – T. A. Panina and G. M. Utkin	1157	1509
Amplification Based on the Principle of Three-Frequency Interactions – L. V. Postnikov and V. A. Mel'nikova	1163	1517
The Beat Mode for Synchronization of an Oscillator by an External Sinusoidal Input – V. I. Korolev	1171	1527
Investigation of the Dynamics of a Pulsed Phase-Shift Automatic Frequency Control System – A. K. Makarov	1180	1538
On the Theory of the Propagation of Partially Coherent Light Beams in a Turbulent Atmosphere – A. I. Kon and V. I. Tatarskii	1187	1547
Fourier Transformation Using Moiré Structures – V. A. Zverev and E. F. Orlov	1193	1555
A Tubular Irised Waveguide – Yu. N. Kazantsev and V. V. Udalov	1198	1561
On Calculating a Single-Tuned Ferrite Filter – V. S. Kireev and K. G. Gudkov	1203	1567
A High-Sensitivity Receiver of Submillimeter Radiation Based on n-GaAs – V. M. Afinogenov, S. A. Aitkhozhin, V. A. Strakhov, A. A. Telegin, and V. I. Trifonov	1207	1572
BRIEF COMMUNICATIONS AND LETTERS TO THE EDITOR		
The Extremal Problem of Controlling a Radiotelescope – V. V. Zotov and B. N. Sevryukov	1213	1580
On Fadings of Scattered Signals during the F_{sp} Phenomenon in the Ionsphere – V. A. Alimov and G. P. Komrakov	1215	1581
A Special Case of Microwave Quantum Amplification in Ruby – T. A. Smirnova, N. T. Cherpak, and Ya. L. Shamfarov	1217	1583

Volume 15, Number 11 November, 1972

Integral Manifolds of Certain Nonlinear Systems – A. S. Gurtovnik and Yu. I. Neimark	1219	1597
Optimal Control of Superimposing Macroprocesses on the Basis of a Physical Approach – V. S. Lerner	1228	1608
Formulation of Approximate Solutions of Nonlinear Systems – P. D. Krut'ko	1243	1627
Certain Rotation Modes of a Magnetized Gyrostat-Satellite in the Geomagnetic Field – A. A. Goncharskii and A. A. Khentov	1246	1631
Operating Modes of an Automatic Phase Control System with Low Inertia in the Control Circuit for Action of Additive Harmonic Interference – L. N. Belyustina and V. N. Belykh	1251	1637
Dynamics of the Self-Oscillatory Extremal System in the Presence of Perturbations – N. N. Leonov	1257	1644
Structure of the Phase Space of Quasilinear Differential Equations of the Neutral Type – Yu. I. Neimark and L. Z. Fishman	1262	1651
Optimization of Discrete Control of Multivariate Objects having Delay – V. V. Kondrat'ev and A. P. Mlinnik	1268	1658
Synthesis of an Optimal Discrete Control System in the Presence of Control Delay – V. V. Kondrat'ev and A. P. Mlinnik	1273	1664
Application of the z-Transformation to an Investigation of the Stability of Difference Schemes – V. N. Smirnova	1279	1671

Engl./Russ.

Methods for Investigating the Dynamics of Linear Automatic Systems with Modulation — S. V. Shil'man. 1288 1682
Investigation of the Dynamics of Nonlinear Sampled-Data Automatic Systems — S. V. Shil'man. 1296 1692
Analysis of a Nonlinear Self-Adaptive Electropneumatic System — A. L. Glik and E. E. Shornikov. 1303 1700
Stability of the Model of a Thin Wing having One and Two Degrees of Freedom — G. V. Aronovich and P. L. Zhirov 1309 1707
Nonlinear Free Oscillations in a Parallel Tuned Circuit with a Varistor — E. A. Maior, V. V. Spevak, and E. V. Kharitonov. 1318 1718
The Effect of Queueing Systems on the Rhythm of Traffic Flows — S. M. P'yanykh and B. I. Vaisblat 1322 1723
Influence of Structural Parameters of the Front-Wheel Suspension on the Self-Oscillations of the Steerable Wheels of a Car — Kh. T. Turaev, N. M. Kislitsyn, V. I. Shishkin, and V. A. Yakovlev. 1326 1727
Certain Algorithms for Sequential Storage in Extremal Systems — V. N. Smirnova and M. L. Tai. 1334 1738
Estimation of the Information Loss and Risk Growth during the Reduction of Observed Data in Problems of Sequential Estimation — S. D. Parondzhanov 1344 1749

Effect of Collisions on the Propagation of Electromagnetic Waves in a Plasma Formed by a Moving Ionization Source — V. I. Semenova 1375 1793
Effect of Shift and Broadening of the Absorption Lines of Rubidium Which Are Caused by a Buffer Gas on the Performance Parameter of a Rubidium Discriminator — E. V. Kulagin, G. A. Mishakov, and A. I. Pikhtelev 1381 1801
Transformation of the Spectrum of Waves in an Active Nonlinear Medium — S. V. Kiyashko and M. I. Rabinovich 1386 1807
Determining the Frequency and Amplitude of an External Input That Causes Resonance in a Linear System with Varying Parameters — D. V. Ageev and A. V. Zen'kovich 1392 1815
A Spatial Signal Multiplier — Yu. V. Osipov 1398 1822
Cubic (Four-Index) Theory of Thermal Noise in Nonlinear Resistances — R. L. Stratonovich and N. A. Krupennikov 1401 1826
Suppression of Pulse Interference for Measurement of the Intensity of Noise Signals by a Modulation Radiometer — A. T. Gavrilin and A. A. Gorbachev 1409 1837
Certain Problems in the Statistical Estimation of the Location of a Signal Source in a Dispersive Medium — V. O. Ashkenazy 1413 1843
Application of the Theory of Multiple Scattering of Waves to the Derivation of the Radiation Transfer Equation for a Statistically Inhomogeneous Medium — Yu. N. Barabanenkov, A. G. Vinogradov, Yu. A. Kravtsov, and V. I. Tatarskii 1420 1852
Investigation of the Time Characteristics of Fluctuations of the Phases of Optical Waves Propagating in the Bottom Layer of the Atmosphere — V. P. Lukin, V. V. Pokasov, and S. S. Khmelevtsov 1426 1861

	Engl.	Russ.
Fluctuations of the Intensity of a Light Beam for Propagation in a Waveguide Channel with Random Inhomogeneities of the Refractive Index – V. V. Vorob'ev	1431	1867
Fluctuations of the Level and Phase of the Field in a Waveguide Having a Random Boundary – V. G. Bezrodnyi and I. M. Fuks	1437	1875
Diffraction of a Plane Electromagnetic Wave by Arrays Consisting of Circular Cylinders Having a Spiral Slit – A. V. Bezuglyi and V. P. Shestopalov	1445	1885
Application of the Lorentz Lemma to the Calculation of the Excitation Coefficient of Diffraction Modes – T. M. Zaboronkova and I. G. Kondrat'ev	1452	1894
The Inverse Diffraction Problem for a Reactance Plane – A. F. Chaplin and A. M. Aksel'rod	1461	1905
Quasioptical Transformation of Natural Waves of Waveguides Having a Circular Cross Section by Means of Axially Symmetrical Reflectors – S. N. Vlasov, I. M. Orlova, and M. I. Petelin	1466	1913
Propagation of Electromagnetic Waves in a Circular Waveguide with Spiral Conducting Inserts – S. I. Lapta	1471	1919
Existence of Complex Waves in Certain Two-Layer Isotropic Structures – S. B. Raevskii	1476	1926
Instability of Coherent Betatron Oscillations of a Bunched Beam in Cyclic Accelerators for Interaction of the Beam with Resonance Systems – V. P. Grigor'ev and V. F. Veingardt	1481	1932
BRIEF COMMUNICATIONS AND LETTERS TO THE EDITOR		
The Problem of the Influence of Absorption on Amplitude Fluctuations of Submillimeter Radio Waves in the Atmosphere – M. B. Kanevskii	1486	1939
Transformation of Waves by a Phase Corrector – R. B. Vaganov	1488	1941
Attenuation of Waves in Superconducting Elliptical Waveguides – S. A. Novikov	1492	1944
